#### Article 61-1

Where any profit-seeking enterprise distributes its dividends or surplus earnings, starting from January 1, 2010, the calculation equation for the amount of offsetting tax prescribed in Article 73-2 of the Act is as follows:

Amount of offsetting tax = Balance amount of the 10% surcharge of profit-seeking enterprise income tax which was actually paid under the provisions of Article 66-9 of the Act each year on the dividends or earnings distribution date × [(Distributed amount of net dividends or net surplus earnings subject to a 10% surcharge of profit-seeking income tax)/(Balance amount in the accumulative undistributed earnings of which +10% of profit-

seeking enterprise income tax was already levied on the dividends or earnings distribution date)] × Shareholding ratio of an individual person or profit-seeking enterprise prescribed in Article 73-2 of the Act on the dividends or earnings distribution date

Ceiling on the amount of offsetting tax = Distributed amount of net dividends or net surplus earnings subject to a 10% surcharge of profit-seeking enterprise income tax received by such individual person or profit-seeking enterprise prescribed in Article 73-2 of the Act × 10%

The balance amount of the 10% surcharge of profit-seeking enterprise income tax which was actually paid mentioned in the preceding paragraph shall be determined prior to the date of distribution by the accumulative amount of the 10% of profit-seeking enterprise income tax which was actually paid each year under the provisions of Article 66-9 of the Act, minus the reduction in the amount of the 10% surcharge of profit-seeking enterprise income tax each year as assessed by the tax collection authority-in-charge after its examination and verification of an annual income tax return, and the amount of 10% surcharge of profit-seeking enterprise income tax distributed to all shareholders each year.

The amount of 10% surcharge of profit-seeking enterprise income tax distributed to all shareholders as stated in the preceding paragraph shall be calculated according to the amount of offsetting tax calculated in the first paragraph divided by the shareholding ratio of an individual person or profit-seeking enterprise prescribed in Article 73-2 of the Act on the dividends or earnings distribution date; if the previous ratio is equal to zero, the amount of the 10% surcharge of profit-seeking enterprise income tax distributed to all shareholders shall be computed, assuming a ratio equal to 1, in accordance with the equation in the first paragraph.

Where any profit-seeking enterprise shall fill out the regulated form and calculate the balance of the actually paid 10% surcharge of profit-seeking enterprise income tax on each year's undistributed surplus earnings prior to the end of 2009 while filing the annual income tax return of FY 2009; in the case of failure in filling out the regulated form and calculating the balance, the tax collection authority-in-charge may assess and determine the balance according to its own findings.

The balance amount of the 10% surcharge of profit-seeking enterprise income tax which was actually paid under the provisions of Article 66-9 of the Act each year on the dividends or earnings distribution date as stated in Paragraph 1 is higher than the amount of the balance in the shareholder imputation tax credit account, such amount as may be distributed to the foreign shareholders shall be subject to the amount of the balance in its shareholder imputation tax credit account.

The amount of net dividends or amount of net earnings as stated in Paragraph 1 is limited to the portion of earnings distributed by a profit-seeking enterprise from the year of 1998 or subsequent years; the so-called accumulative undistributed earnings is limited to the portion of accumulative earnings not distributed by the profit-seeking enterprise from the year of 1998 or subsequent years.
